4.3. *Pre-Qualification Criteria*

IUCN will use the following Pre-Qualification Criteria to determine whether you have the capacity to provide the required goods and/or services to IUCN. Please provide the necessary information in a single, separate document.

	Pre-Qualification Criteria
1	3 relevant references of clients similar to IUCN / similar work
2	Confirm that you have all the necessary legal registrations to perform the work
3	State your annual turnover for each of the past 3 years

4.4. *Technical Proposal*

The technical proposal must address each of the criteria stated below explicitly and separately, quoting the relevant criteria reference number (left-hand column).

Proposals in any other format will significantly increase the time it takes to evaluate, and such Proposals may therefore be rejected at IUCN's discretion.

Where CVs are requested, these must be of the individuals who will actually carry out the work specified. The individuals you put forward may only be substituted with IUCN's approval.

IUCN will evaluate technical proposals with regards to each of the following criteria and their relative importance:

	Description	Information to provide	Relative weight
1	Curriculum Vitae (CV)	Detail related information in the CV	100%
TOTAL			100%

4.5. *Financial Proposal*

4.5.1. The financial proposal must be a fixed and firm price for the provision of the goods/services stated in the RfP in their entirety.

4.5.2. *Prices include all costs*

Submitted rates and prices are deemed to include all costs, insurances, taxes, fees, expenses, liabilities, obligations, risk and other things necessary for the performance of the Terms of Reference or Specification of Requirements. SN	Description of Costs	Nos	Quantity	Unit	Unit Price	Total Price
A	Remuneration	1	80	Man-Day		
B	Travel Related	1	40	Days		
C	Printing/Stationery/Communication etc.	LS				
D	Field Consultations Cost	19	2	Number		
E		
	Total inclusive of all tax

You may freely withdraw or change your proposal at any time prior to the submission deadline by written notice to the IUCN Contact. However, in order to reduce the risk of fraud, no changes or withdrawals will be accepted after the submission deadline.

5. EVALUATION OF PROPOSALS

5.1. *Completeness*

IUCN will firstly check your proposal for completeness. Incomplete proposals will not be considered further.

5.2. *Pre-Qualification Criteria*

Only proposals that meet all of the pre-qualification criteria will be evaluated.

5.3. *Technical Evaluation*

5.3.1. *Scoring Method*

Your proposal will be assigned a score from 0 to 10 for each of the technical evaluation criteria, such that '0' is low and '10' is high.

5.3.2. *Minimum Quality Thresholds*

Proposals that receive a score of '0' for any of the criteria will not be considered further.

5.3.3. *Technical Score*

Your score for each technical evaluation criterion will be multiplied with the respective relative weight (see Section 4.4) and these weighted scores added together to give your proposal's overall technical score.

5.4. *Financial Evaluation and Financial Scores*

The financial evaluation will be based upon the full total price you submit. Your financial proposal will receive a score calculated by dividing the lowest financial proposal that has passed the minimum quality thresholds (see Section 5.3.2) by the total price of your financial proposal.

Thus, for example, if your financial proposal is for a total of NPR 100 and the lowest financial proposal is NPR 80, you will receive a financial score of $80/100 = 80\%$

5.5. *Total Score*

Your proposal's total score will be calculated as the weighted sum of your technical score and your financial score.

The relative weights will be:

Technical:	70%
Financial:	30%

Thus, for example, if your technical score is 83% and your financial score is 77%, you will receive a total score of $83 * 70\% + 77 * 30\% = 58.1\% + 23.1\% = 81.2\%$.

Subject to the requirements in Sections 4 and 7, IUCN will award the contract to the bidder whose proposal achieves the highest total score.

6. **EXPLANATION OF PROCUREMENT PROCEDURE**

- 6.1. IUCN is using the Open Procedure for this procurement. This means that the contracting opportunity is published on IUCN's website and open to all interested parties to take part, subject to the conditions in Section 7 below.

- 6.3. All proposals must be received by the submission deadline in Section 3.2 above. Late proposals will not be considered. All proposals received by the submission deadline will be evaluated by a team of three or more evaluators in accordance with the evaluation criteria stated in this RfP. No other criteria will be used to evaluate proposals. The contract will be awarded to the bidder whose proposal received the highest Total Score. IUCN does, however, reserve the right to cancel the procurement and not award a contract at all.
- 6.4. IUCN will contact the bidder with the highest-scoring proposal to finalise the contract. We will contact unsuccessful bidders after the contract has been awarded and provide detailed feedback. The timetable in Section 3.1 gives an estimate of when we expect to have completed the contract award, but this date may change depending on how long the evaluation of proposals takes.

Consultant – Identifying the exact sites in consultation with the community for constructing green belts

PROJECT:

Improving Climate Resilience of Vulnerable Communities and Ecosystems in the Gandaki River Basin, Nepal

BACKGROUND:

The Project is designed to improve resilience of communities through ecosystem and livelihood adaptation to climate change in the Gandaki River Basin. The GRB occupies about 21% of Nepal's land area and is one of the largest river basin in Nepal. The project is approved by the Green Climate Fund (GCF). The project is designed to shift planning and implementation of climate change adaptation measures from using political boundaries such as district and municipalities as a basis to river basin management, to one where the entire landscape along the basin becomes one unit of planning and implementation of climate change adaptation measures linking all the impacted communities in the upstream and downstream at the landscape level

The project is designed with three components i) Community Resilience ii) Ecosystem Resilience and iii) Climate Governance. Each of the project components has an outcome which will contributed to by two to three project outputs.

The planned outcomes and outputs of the Project include:

Outcome 1: Enhanced resilience of livelihood of the vulnerable communities, through adapting to climate change sustainable

Output 1.1: Climate resilient agroforestry and livelihood improvement actions implemented for coping with extreme events.

Output 1.2: Interventions for water availability and water use efficiency from irrigation systems and improved water sources implemented.

Outcome 2: Strengthened climate resilience of ecosystems

Output 2.1 Natural ecosystem restoration-based actions implemented for reducing impacts of landslides and floods.

Output 2.2 Technical capacity of GRB communities enhanced in maintaining and supporting climate resilient ecosystems

Outcome 3: Strengthened climate governance and institutional framework to sustain climate.

Output 3.1: Community-based mechanism for planning, restoration, monitoring, and maintenance of ecosystems established.

Output 3.2 Ecosystem-based climate change adaptation approaches incorporated into government policies & plans.

Output 3.3 Knowledge management established for climate resilient River Basin Management

The Project aims to reach at least 198,000 households directly through project intervention and 250,000 households indirectly from the project intervention. It is 16.88% of total population in the area.
