4.3. Pre-Qualification Criteria

IUCN will use the following Pre-Qualification Criteria to determine whether you have the capacity to provide the required goods and/or services to IUCN. Please provide the necessary information in a single, separate document.

Pre-Qualification Criteria	
1	3 relevant references of clients similar to IUCN / similar work
2	Confirm that you have all the necessary legal registrations to perform the work
3	State your annual turnover for each of the past 3 years
4	How many employees does your organisation have who are qualified for this work?

4.4. Technical Proposal

The technical proposal must address each of the criteria stated below explicitly and separately, quoting the relevant criteria reference number (left-hand column).

Proposals in any other format will significantly increase the time it takes to evaluate, and such Proposals may therefore be rejected at IUCN's discretion.

Where CVs are requested, these must be of the individuals who will actually carry out the work specified. The individuals you put forward may only be substituted with IUCN's approval.

IUCN will evaluate technical proposals with regards to each of the following criteria and their relative importance:

	Description	Information to provide	Relative weight
1	Methodology, approach and workplan	A detailed description of the methodological approach, means that will be used	30%
2	Specific experience relevant to the themes of this call (climate change, health, forest conservation and/or restoration)	CVs of lead expert and team members outlining relevant experience	25%
3	A good understanding of deforestation-driven climate change, its impacts on community and public health	Individual CV or company profile outlining relevant knowledge and experience and recommendation from previous work experience	25%
4	Evidence of previous publication experience and knowledge products including journal articles, reports, blogs etc on the themes of this call	Individual CVs, journal articles, reports, DOI, hyperlinks, attachments etc	20%
TOTAL			100%

4.5. *Financial Proposal*

4.5.1. The financial proposal must be a fixed and firm price for the provision of the goods/services stated in the RfP in their entirety.

4.5.2. *Prices include all costs*

Submitted rates and prices are deemed to include all costs, insurances, taxes (except VAT, see below), fees, expenses, liabilities, obligations, risk and other things necessary for the performance of the Terms of Reference or Specification of Requirements. IUCN will not accept charges beyond those clearly stated in the Financial Proposal. This includes applicable withholding taxes and similar. It is your responsibility to determine whether such taxes apply to your organisation and to include them in your financial offer.

For the purposes of this consultancy, the maximum budget is up to USD 50 000 [Fifty thousand United States Dollars only]

4.5.3. *Applicable Goods and Services Taxes*

Proposal rates and prices shall be exclusive of Value Added Tax.

4.5.4. *Currency of proposed rates and prices*

All rates and prices submitted by Proposers shall be in **USD [United States Dollar]**.

4.5.5. *Breakdown of rates and prices*

For information only, the price needs to be broken down as follows:

	Description	Day/week rate	Total days/weeks input	Sub-Total Fee
1	Team leader			
2	Expert 1			
3	Expert 2			
4				
5				
6				
	TOTAL			

4.6. Additional information not requested by IUCN should not be included in your Proposal and will not be taken into account in the evaluation.

4.7. Your proposal must remain valid and capable of acceptance by IUCN for a period of 90 calendar days following the submission deadline.

4.8. *Withdrawals and Changes*

You may freely withdraw or change your proposal at any time prior to the submission deadline by written notice to the IUCN Contact. However, in order to reduce the risk of fraud, no changes or withdrawals will be accepted after the submission deadline.

5. EVALUATION OF PROPOSALS

5.1. *Completeness*

IUCN will firstly check your proposal for completeness. Incomplete proposals will not be considered further.

5.2. *Pre-Qualification Criteria*

Only proposals that meet all of the pre-qualification criteria will be evaluated.

5.3. *Technical Evaluation*

5.3.1. *Scoring Method*

Your proposal will be assigned a score from 0 to 10 for each of the technical evaluation criteria, such that '0' is low and '10' is high.

5.3.2. *Minimum Quality Thresholds*

Proposals that receive a score of '0' for any of the criteria will not be considered further.

5.3.3. *Technical Score*

Your score for each technical evaluation criterion will be multiplied with the respective relative weight (see Section 4.4) and these weighted scores added together to give your proposal's overall technical score.

5.4. *Financial Evaluation and Financial Scores*

The financial evaluation will be based upon the full total price you submit. Your financial proposal will receive a score calculated by dividing the lowest financial proposal that has passed the minimum quality thresholds (see Section 5.3.2) by the total price of your financial proposal.

Thus, for example, if your financial proposal is for a total of CHF 100 and the lowest financial proposal is CHF 80, you will receive a financial score of $80/100 = 80\%$

5.5. *Total Score*

Your proposal's total score will be calculated as the weighted sum of your technical score and your financial score.

The relative weights will be:

Technical:	70%
Financial:	30%

Thus, for example, if your technical score is 83% and your financial score is 77%, you will receive a total score of $83 * 70\% + 77 * 30\% = 58.1\% + 23.1\% = 81.2\%$.

Subject to the requirements in Sections 4 and 7, IUCN will award the contract to the bidder whose proposal achieves the highest total score.

6. **EXPLANATION OF PROCUREMENT PROCEDURE**

- 6.1. IUCN is using the Open Procedure for this procurement. This means that the contracting opportunity is published on IUCN's website and open to all interested parties to take part, subject to the conditions in Section 7 below.
- 6.2. You are welcome to ask questions or seek clarification regarding this procurement. Please email the IUCN Contact (see Section 2), taking note of the deadline for submission of questions in Section 3.1.
- 6.3. All proposals must be received by the submission deadline in Section 3.2 above. Late proposals will not be considered. All proposals received by the submission deadline will be evaluated by a team of three or more evaluators in accordance with the evaluation criteria stated in this RfP. No other criteria will be used to evaluate proposals. The contract will be awarded to the bidder whose proposal received the highest Total Score. IUCN does, however, reserve the right to cancel the procurement and not award a contract at all.
- 6.4. IUCN will contact the bidder with the highest-scoring proposal to finalise the contract. We will contact unsuccessful bidders after the contract has been awarded and provide detailed feedback. The timetable in Section 3.1 gives an estimate of when we expect to have completed the contract award, but this date may change depending on how long the evaluation of proposals takes.

- 7.5. Each bidder shall submit only one proposal, either individually or as a partner in a joint venture. In case of joint venture, one company shall not be allowed to participate in two different joint ventures in the same procurement nor shall a company be allowed to submit a proposal both on its behalf and as part of a joint venture for the same procurement. A bidder who submits or participates in more than one proposal (other than as a subcontractor or in cases of alternatives that have been permitted or requested) shall cause all the proposals with the bidder's participation to be disqualified.
- 7.6. By taking part in this procurement, you accept the conditions set out in this RfP, including the following:
- It is unacceptable to give or offer any gift or consideration to an employee or other representative of IUCN as a reward or inducement in relation to the awarding of a contract. For audit purposes, IUCN is required to retain your proposal in its entirety for 10 years and make this available to internal and external auditors and donors as and when requested.
- 8.2. In the Declaration of Undertaking (Attachment 2) you need to give IUCN express permission to use the information you submit in this way, including personal data that forms part of your proposal. Where you include personal data of your employees (e.g. CVs) in your proposal, you need to have written permission from those individuals to share this information with IUCN, and for IUCN to use this information as indicated in 8.1. Without these permissions, IUCN will not be able to consider your proposal.

If you have a complaint or concern regarding the propriety of how a competitive process is or has been executed, then please contact procurement@iucn.org. Such complaints or concerns will be treated as confidential and are not considered in breach of the above restrictions on communication (Section 2.1).

Headquartered in Switzerland, IUCN Secretariat comprises around 1,000 staff with offices in more than 50 countries.

Created in 1948, IUCN is now the world's largest and most diverse environmental network, harnessing the knowledge, resources and reach of more than 1,300 Member organisations and some 10,000 experts. It is a leading provider of conservation data, assessments and analysis. Its broad membership enables IUCN to fill the role of incubator and trusted repository of best practices, tools and international standards.

IUCN provides a neutral space in which diverse stakeholders including governments, NGOs, scientists, businesses, local communities, indigenous peoples organisations and others can work together to forge and implement solutions to environmental challenges and achieve sustainable development.

ATTACHMENT 1 – TERMS OF REFERENCE

1. Introduction

The International Union for the Conservation of Nature (IUCN) is seeking the services of a consultant or consulting firm to conduct a comprehensive analysis on the health impacts induced by deforestation. Deforestation exacerbates climate change and has significant impacts on human health, especially for at-risk populations and communities. Despite global attention, there remains a policy and practice-related evidence gap. To mitigate these adverse health impacts, evidence-based strategies and policy recommendations are crucial. This has been identified as one of the key knowledge gaps by the recent International Union for Forest Research Organizations (IUFRO)'s recent study in the topic as evidenced in the Policy Brief on [Forests and Trees for Human Health: Pathways, Impacts, Challenges and Response Options](#) & the corresponding [Global Assessment Report](#)¹.

The present terms of reference aim to obtain the services of a consultant or consulting firm to conduct a comprehensive review of existing relevant materials and literature on the health impacts induced by deforestation. The review will identify evidence and opportunities for forest interventions to address these adverse impacts. The recommendations will be useful for practitioners and policymakers.

2. Objective

Conduct a comprehensive review on forest deforestation induced health impacts and identify evidence and opportunities for forest interventions to address those impacts and recommendations for practitioners and policy makers.

3. Scope of work

The consultant/consulting firm will undertake activities under the supervision of the Senior Programme Coordinator, Forest and Grassland Team (FGT) as well as in collaboration with other members of the FGT.

The consultancy has 4 components as follows:

- i. Organizing a webinar of experts to carry out initial scoping
 - a. The organization of the webinar & initial scoping would be in consultation with the IUCN team and using IUCN's platform
- ii. Desk review/Synthesis
 - a. Review of relevant literature on forest deforestation, climate change and their associated health impacts.
 - b. Analysis of the deforestation trends and their associated health impacts in different geographies. The geographies have not been set but proposals encompassing multiple geographies are encouraged.
 - c. Finalization of the study area/geographies etc after the initial scoping and in discussions with the IUCN team.
- iii. Wrap up seminar with experts to share findings
 - a. The organization of the webinar would be in consultation with the IUCN team and using IUCN's platform
- iv. Final report incorporating feedback from experts
 - a. The report should follow the IUCN [style manual](#) and [publishing guidelines](#).

¹ A total of 44 scientists and experts contributed to this assessment, with a core Expert Panel of 16 scientists with diverse expertise, including forestry, ecology, landscape design, psychology, medicine, epidemiology and public health.

The study could be based on one or a combination of:

- Secondary literature review
- Spatial analysis
- Case studies
- *Others*

The assignment does not foresee any primary data collection and collaborative proposals are encouraged. The consultant(s) will be encouraged to submit a journal article on the review/synthesis carried out during this assignment.

4. Methodology

The consultant/consulting firm should clearly outline the methodology used in conducting the review, including the selection criteria for literature and data sources, data extraction and analysis, and any statistical methods used. The methodology should be transparent and replicable to ensure the validity of the findings.

5. Target audience

The final report should be tailored to practitioners and policymakers working in the field of public health and conservation, with the aim of providing evidence-based recommendations for forest interventions to address the adverse health impacts of deforestation. The report should be written in a clear and accessible manner, with appropriate visual aids, to ensure that it can be easily understood by a wide range of stakeholders.

6. Gender and social inclusion

The consultant/consulting firm should consider gender and social inclusion in all aspects of the review, including the selection of literature and data sources, the analysis of the data, and the development of recommendations. The review should consider how deforestation and its associated health impacts affect different gender and social groups and should highlight opportunities for interventions that promote gender and social equality.

7. Timelines

The consultant/consulting firm should provide a detailed timeline for the completion of the assignment, including key milestones and deliverables. The timeline should take into account any potential delays or challenges that may arise during the course of the review. A more detailed timeline and workplan will be sought from the selected consultant/consulting firm within the inception report.

The following are the key dates for this assignment:

Start date	7 June 2023
Interim report submission	7 October 2023
Final report submission	7 December 2023

8. Deliverables

- Organization of consultations/webinars etc for initial scoping, report drafting (as needed) and dissemination of findings.
- Interim report that provides an outline of the methodology and resources for conducting the study, timeline & workplan. and draft outline of the final report.

- Draft report addressing all elements outlined above.
- Final report incorporating feedback from IUCN and data, data sources and bibliography.
- Selected case studies outlining the opportunities and recommendations.

All final deliverables should follow the IUCN [style manual](#) and [publishing guidelines](#).
